

# to Children with Love

Changing Children's Lives

Irish mum Debbie Deegan founder of **To Children With Love** has been working tirelessly since 1998, transforming the lives of thousands of abandoned and severely disadvantaged Russian children. **To Children With Love** have a proven track record with programmes of care, confidence building and

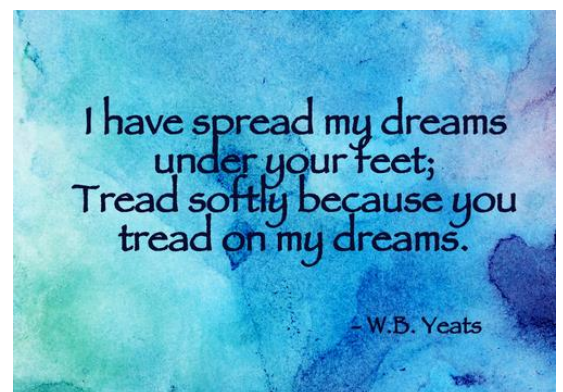

provide the children under their wings with improved living conditions, healthcare and education.

**Irish Whiskey Museum** have kindly come on board to support **To Children With Love** with our first project in Ireland. We are delighted to have been asked to bring our expertise back to Ireland to fund a pilot programme with disadvantaged children here, designed to build self-esteem & confidence, while at the same time building valuable life skills that will enable these very children to achieve their full potential

By supporting **Irish Whiskey Museum** you are enhancing the lives of our disadvantaged children. Our project is designed to meet the needs of these marginalised and socially excluded children at the most crucial point in their lives, providing structured supports for students from 6th class to 6th year to help them access third level education and break the cycle of poverty and social exclusion. To Donate or for more information please see [www.tochildrenwithlove.ie](http://www.tochildrenwithlove.ie)

Thank You
